To maximize Thermogenic Energy, our researchers combined caffeine anhydrous with Theobromine and the patented stimulants TeaCrine® and Dynamine®. These stims have been included in the precise ratios shown to maximize energy without the “crash” experienced with traditional pre-workouts.

To increase Metabolic Rate, IMPACT IGNITER XTREME also includes CaloriBurn GP® which delivers the bioactive compounds 6-paradol, 6-shogaol, and 6-gingerol and 6-Gingerdione in the exact levels human studies have shown to be effective in boosting fat oxidation.

To support Mental Focus, we've included Lion's Mane Mushroom, Tyrosine, Huperzine-A, alpha-GPC and a rare Mango Extract shown to enhance mental performance. The synergistic balance of these nootropics helps prevent the destruction of Acetyl Choline in the brain producing an effect unlike anything you've ever experienced.

Medicinal Ingredients / Ingrédients médicinaux				
Serving Size / Portion :		1 Scoop / cuillère (9 g)	2 Scoops / cuillères (18 g)	
Servings Per Container / portions par contenant :		~40	~20
