Cold-water Fish Oil Concentrate - Known as the healthiest of fats, Omega 3 Essential Fatty Acids (EFAs) provide a wide range of health and performance benefits.

Research has shown that increased consumption of Omega 3 EFAs improves the elasticity of arterial walls and helps to reduce harmful levels of plasma triglycerides.

Omega 3s are found in high concentrations in the brain as they are essential for nerve conduction and brain function. In addition, a deficiency in Omega 3 EFAs may impair learning ability and memory. Rapid nerve impulses are essential for any athlete.

Research has also shown a reduction in weight with increased consumption of Omega 3 EFAs. One study with consumption of over 3 g a day of Omega 3 EFAs showed a 26% reduction in weight.

ALLMAX Omega 3 has a neutralized flavour to reduce the "fishy repeat" experience of other fish oil capsules. Made from Wild-caught Anchovies and Sardines caught in the pristine waters off the coasts of Chile and Peru.

Enclosed in a black opaque container, ALLMAX Omega 3 EFAs are protected from light-source degradation keeping your Omega 3s in pristine condition. Enjoy all of the healthy benefits with none of the drawbacks that some formulations have with ALLMAX Omega 3 EFAs.
