ALLMAX[®] ESSENTIALS

• PROFESSIONAL GRADE SUPPLEMENTS •

ALLMAX[®] now provides you with the highest quality in Bulgarian Species Tribulus Terrestris with TRIBX90[®]. Laboratory tests have confirmed high levels of Steroidal Saponins at 90% using UV Spectrophotometry Absorption testing.

Scientific research suggests that Tribulus increases the body's production of luteinizing hormone which in turn promotes the healthy, normal production of Testosterone, the key male hormone responsible for helping to add lean body mass, increase metabolism and support healthy libido or sex drive levels. Popular among bodybuilders, Tribulus is the perfect complement to your hardcore training regimen.*

The source herb in TRIBX90[®] has been wild harvested by hand at peak season (just one specific month of the whole year!) to ensure the highest levels steroidal saponins - the most concentrated phytochemicals! Other lesser source tribulus products on the market are most often at most 40 to 45% saponins. Experience the power of wild crafted Tribulus backed by clinical laboratory testing; trust ALLMAX[®] to bring you the utmost in quality and potency.*
