ALLMAX®
ESSENTIALS

• PROFESSIONAL GRADE SUPPLEMENTS •

ALLMAX introduces L-Carnitine L-Tartrate (LCLT), one of the world's most bio-available forms of L-Carnitine supplementation.*

STIMULANT-FREE FAT METABOLIZER:

L-Carnitine is essential for transporting long-chain fats into the cell (mitochondria). L-Carnitine taps into your fat supply and may provide support to burn it as fuel, resulting in increased energy. Without L-Carnitine, these fats cannot be burned for energy and are instead shunted to stored body fat.*

BOOST ENERGY, ENDURANCE & PERFORMANCE:

L-Carnitine enhances performance by increasing the body's reliance on fat for energy; this reduces depletion of muscle glycogen. By reducing muscle tissue lactic acid build-up, performance athletes using L-Carnitine can extend duration of muscular exertion before fatigue.*

ALLMAX L-Carnitine L-Tartrate (LCLT) provides 60 full servings per bottle while delivering 1,000 mg of L-Carnitine in each serving.
