

RAPIDCUTS[®] THERMO

NON-STIMULANT FORMULA*

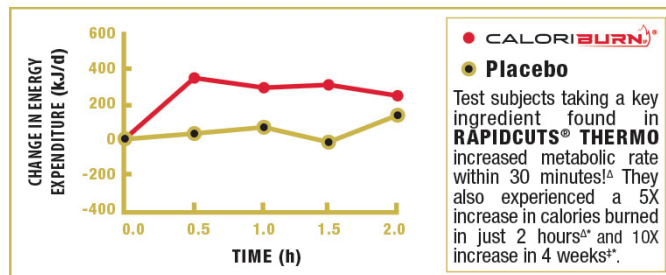

RAPIDCUTS[®] THERMO NEW NON-STIMULANT THERMOGENIC FAT BURNER

Introducing our first cutting edge Non-Stimulant fat burning formula – **Rapidcuts[®] Thermo!** A powerful new addition to the Allmax line of bodybuilding supplements, Rapidcuts Thermo contains some of the most effective research-backed ingredients known for fat loss. It also includes some new clinically backed ingredients that provide comparable fat-shredding power you demand from your high-stim fat burner supplement but without the stimulant. Now you have the power to burn fat any time of day... or night!

WHAT'S NEW

CALORIBURN GP[™]

CalorieBurn GP[™] has been shown to effectively activate Brown Adipose Tissue (BAT), which is a very unique type of fat cell that is both thermogenic and metabolically active, burning calories rather than storing them like typical White Adipose Tissue (WAT). BAT is increasingly recognized as a powerful metabolic target, playing a significant role in the regulation of body composition and energy expenditure.

^aSugita et al. *British Journal of Nutrition*. 2013;110(4):733-738.

^{*}Sugita et al. *Journal of Nutritional Science and Vitaminology*. 2014; 60(1); 22-27.

CalorieBurn GP[™] is a powerful fat incinerator that has been shown to:

- Increase metabolic rate (i.e., caloric expenditure) in a small, potent dose
- Activate the metabolically active, highly thermogenic Brown Adipose Tissue (BAT)
- Have a long history of use in food supply with a strong safety profile
- Non-stimulatory thermogenic that's safe to use any time of day

GBBGO[®]

A precursor to L-Carnitine, GBBGO[®] may naturally increase the production of L-Carnitine by your body. Increasing natural L-Carnitine not only aids in fat burning but also has the potential to enhance exercise performance and recovery!

Supplement Facts

	1		3	
Serving Size (Capsule)	60		20	
Servings Per Container	60		20	
	Amount	%DV**	Amount	%DV**
Choline (as Choline Bitartrate)	33 mg	6%	100 mg	18%
Chromium (as Picolinate)	16 mcg	46%	50 mcg	143%
Green Tea (<i>Camellia sinensis</i> , leaf) extract	166 mg	†	500 mg	†
Green Coffee Bean (<i>Coffea canefora</i> , seed) extract (std. to 50% Chlorogenic Acid)	166 mg	†	500 mg	†
Conjugated Linoleic Acid Powder (std. to 60% CLA)	166 mg	†	500 mg	†
Garcinia Cambogia (<i>Garcinia cambogia</i> , fruit) extract (Std. to 60% HCA)	83 mg	†	250 mg	†
L-Carnitine-L-Tartrate	83 mg	†	250 mg	†
CALORIBURN GP [®] [Grains of Paradise (<i>Aframomum melegueta</i> , seed) extract]	13 mg	†	40 mg	†
GBBGO [®] (Gamma-Butyrobetaine Hydrochloride)	10 mg	†	30 mg	†

** Percent Daily Value based on a 2000 calorie diet.

† Daily Value not established.

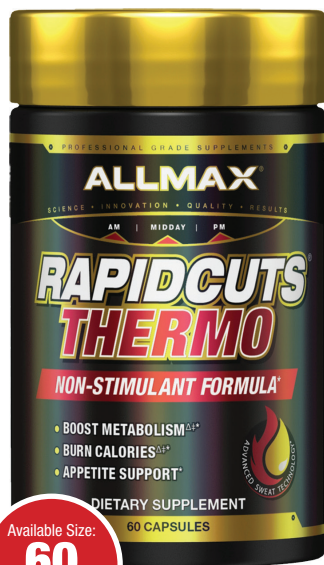

OTHER INGREDIENTS: Gelatin (Bovine), Magnesium Stearate, Sodium Caseinate (Milk derivative), Silicon Dioxide, Dipotassium Phosphate.

RAPIDCUTS[®] THERMO

NON-STIMULANT FORMULA*

- **Boost Metabolism**
- **Burn Calories**
- **Appetite Support**

OTHER KEY INGREDIENTS

Green Coffee Extract

Rapidcuts Thermo is formulated with Green Coffee Bean Extract (GCBE) which supports normal, healthy insulin levels, especially following meals. Higher insulin levels can literally shut down fat loss. Green coffee bean extract contains chlorogenic acids which are the key ingredient that support the weight loss benefits of GCBE. First, they promote balanced blood sugar by inhibiting the release of glucose within the body. Secondly, chlorogenic acids boost the metabolic output of the liver, which in turn helps to burn more fat. This dual mechanism works to support lean body mass.

Green Tea

Green Tea has several studies backing its efficacy when it comes to weight loss, fat burning and aiding with metabolism. The effects of green tea are even stronger when combined with exercise.

Garcinia Cambogia

Garcinia cambogia supplements are made from extracts of the peel of the Garcinia gummi-gutta fruit. They contain high amounts of hydroxycitric acid (HCA), which has been shown to have some weight loss properties.

Conjugated Linoleic Acid

Conjugated Linoleic Acid (CLA) is a remarkable dietary supplement derived from sources like safflower and sunflower oil and found naturally in grass fed meats and dairy as well as the yolk of an egg. CLA works to reduce body fat by preventing fat accumulation in fat cells. Fat normally enters the fat cell through a door that is controlled by an enzyme that acts as the key. Scientists now believe that CLA may have a unique effect on body fat by inhibiting the transport mechanism of fat into fat cells, reducing the size of these cells. Some studies have indicated that this may lead to an improved body composition.

L-Carnitine L-Tartrate

L-Carnitine is essential for transporting long-chain fats into the cell (mitochondria). It taps into your fat supply and may provide support to burn it as fuel, resulting in increased energy. Without L-Carnitine, these fats cannot be burned for energy and are instead shunted to stored body fat. L-Carnitine also enhances performance by increasing the body's reliance on fat for energy; this reduces depletion of muscle glycogen. By reducing muscle tissue lactic acid build-up, performance athletes using L-Carnitine can extend duration of muscular exertion before fatigue.

HOW TO STACK RAPIDCUTS THERMO

Rapidcuts Thermo can be stacked several ways. For the ultimate shredded stack, you may choose to stack it with **Rapidcuts Shredded**. Simply take one serving of Rapidcuts Shredded in the morning and follow it with Rapidcuts Thermo midday and before bed. For those that prefer to go stimulant free, you may also choose to stack it with **Allmax 95% pure CLA** at each meal and/or add **Allmax L-Carnitine** liquid or pill form prior to working out.

BOTTOM LINE

Whether you're looking to take a break from stimulants or are looking to add a proven weight management formula to your daily (and/or nightly) routine, Rapidcuts Thermo is the most effective non-stimulant product to help you get a more defined physique.

Add it to your stack today!
