

TUDCA+

- Liver Detoxification
- Support Liver Health
- Source of Anti-Oxidants

250 mg
PER SERVING

TAUROURSODEOXYCHOLIC ACID

TUDCA (Tauroursodexoycholic acid) is a little known ingredient that can rapidly improve your liver function! TUDCA is a component of your bile acid. Your body only produces a small amount, but through oral supplementation you can easily increase the amount of TUDCA in your body.

In your body, TUDCA is made through a microbial process. Bile salts are released into your intestines through your liver bile duct. Then the microbes in your gut metabolize the bile salts into Ursodeoxycholic acid (UDCA). Later it is connected to a Taurine molecule to create TUDCA.

Additionally certain drugs can chemically alter your bile flow, bile quality, and liver enzyme count, TUDCA can significantly support your liver in these situations. We have added Choline to Tudca+ to further help support liver function.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value ^Δ	
Choline (as Choline Bitartrate)	27.5 mg	5%
TUDCA (Tauroursodeoxycholic Acid)	250 mg	†

^Δ Percent Daily Value (DV) is based on a 2,000 calorie diet.
[†] Daily Value not established.

Other Ingredients: Gelatin (Bovine), Microcrystalline Cellulose, Magnesium Stearate, Dicalcium Phosphate and Brown Rice Flour.
